

Zeochrome

Zeolite silicates soaked with growth enhancers, nutrients and rooting agents. Sod sticker, promotes the rapid recovery of worn out and stressed turf surfaces

BENEFITS

- Strong sod sticker; distributed on the top-soil before laying, reduces rooting time by 50%, eliminating installation stress
- Revitalizes all worn out turf areas: from golf greens and tees, to sports fields (natural and hybrid), to garden lawns
- As a topdressing media, instantly promotes turfgrass' recovery from environmental stresses and damages caused by diseases
- Incorporated in the aeration holes after coring, impressively boosts turf rooting and regrowth
- Accelerates color recovery from leaf yellowing, quickly providing a beautiful bright green color
- Eco-sustainable: supplies the soil with humic and fulvic acids that, combined with the zeolite, help retaining nutrients in the rootzone, preventing leaching

TECHNICAL FEATURES

97,85 % Zeolite Zeotech 300 (0,7-2,0 mm. diam.)
0,25% Humic acids from Leonardite
1,5% Filtrated Sea Kelb meal
0,3% Urea nitrogen (N)
0,10% Iron (Fe) chelate (EDTA)
Contains other organic chelating agents
Bulk density: 0,91 kg/liter
Granular Size: 0,7mm - 2,0 mm

Soil conditioner based on Zeotech 300® chabasitic silicate soaked with the growth and rooting promoter Formula GP (humic acids, chelates, algae, nitrogen and iron). Zeochrome has all the advantages of its main ingredient, Zeotech 300® zeolite: a very high cation exchange capacity (CSC) and an exceptional water retention.

APPLICATION METHODS

When laying sod: 1.0-2.0 kg / m². Distribute on top soil surface. Lay the sod, roll and irrigate

As top-dressing media, directly over turf's surface: 300-500 gr / m² . Distribute with a normal fertilizer spreader, lightly incorporate and irrigate

After a micro-spiking or micro-coring: 1.0-1.5 kg / m² . Incorporate slightly and irrigate

After deep core aeration: 1.5-3.0 kg / m². Distribute on open holes, completing their filling and surface leveling with sand

PACKAGING:

Zeochrome is available in 20 kg bags on 1000 kg pallets or in 500 kg big-bags (0.46CM).
