Special potassium phosphite foliar formula, specific for turf with iron and manganese chelates

K 16 + 2Fe + 0,5Mn

BENEFITS

- Summer-winter fortifying and protective potassium liquid foliar supplement. Strengthens cell walls and vascular tissues before, during and after hot and cold stress periods
- It has all the benefits of phosphites. It contributes nutritionally to limiting diseases by increasing plants' immune system
- Promotes nutritionally turf growth and recovery when plants are under attack in winter by Microdochium
- Promotes nutritionally turf growth and recovery when plants are under attack during the growing season by Antrachnose, Take all Patch, Pythium, root Pythium and Fairy Rings
- Iron chelate improves color and stimulates photosynthesis; rich of manganese chelate, a nutraceutical antioxidant aid involved in roots diseases prevention

TECHNICAL FEATURES

16% Total potassium oxide (K₂O) water soluble
2% Iron (Fe) chelated EDTA
0,5% Manganese (Mn) chelated EDTA
Contains organic facilitators of foliar absorption

Nutraceutical potassium liquid fertilizer with phosphites and chelated micronutrients. Contains special organic acids that facilitate leaf absorption, making potassium immediately available. Herbatech proprietary formula, specifically engineered for turf, does not scorch and it is easy to use. Helps in the nutritional prevention of turf summer and winter biotic stresses. Results are healthy and resistant lawns with many deep roots and an overall improvement of turf general quality (growth, color, density etc)

APPLICATION METHODS

Preventive-curative treatments: in early Summer and early Winter at 1.0 liters /1,000 m² in 80 liters H₂O every two weeks.

Repeat every two weeks.

Product efficacy is immediate, both on normal turf growing conditions or in case of fungal infection. Distribute on dry grass in the cool hours of the day. Do not water or mow for 6 hours after treatment. Avoid contact of the product on sidewalks or other stone surfaces.

Do not mix it with colorants and pigments.

PACKAGING: 5 liter drums
